OVERALL EXPERIENCE

- During my stay in Malta, I lived in **Valletta** with three other girls from my same school: we were hosted by a lovely elderly lady, Miss Margaret;
- I had the opportunity to work in a real estate agency named Ben Estates which was situated in Qwara, a city in the north side of the island;
- my employers were very professional, patient and kind people;
- working there was a formative, learning and challenging experience that helped me improve my language and social skills.

-
- Thanks to this trip, I had the chance to make new friends, visit mesmerizing places and know a culture different from mine.
